Research in Science & Technology

More Than Bricks And Mortar: Economic, Cultural, And Ethical Factors Influencing Psychiatric Facilities Design In Southeast Nigeria	01-06
Precision cutting and polishing of thin metal substrates with electroless nickel plating for bent neutron-focusing optics	07-12
Determination of the values of ideality factor, barrier height and saturation current for three different Schottky combinations via Conventional I -V and Modified Cheung's models	13-19
An Enhanced and Efficient Technique for the Precision Lapping of High-Quality Sapphire Workpieces	20-27
The Influence of Profitability, Liquidity, Leverage, Company Size on Company Value with GCG as a Moderating Variable	28-41
Accurate spray paint design of reciprocating machine based on YOLOv5	42-44
Study on the design of turning unit and optimization of transmission gear structure for shale gas compressor	45-55
Women and work pressures in the industry 4.0	56-60
Innovation and Development of Digital Archive Management in Universities	61-63
Evaluation of the COVID-19 Pandemic's Impact on Cost, Quality, and Time in Road Infrastructure Development in East Lombok Regency in 2021: Regression Approach and Fault Tree Analysis (FTA)	64-68
Secondary Education and Educational Reforms in Nigeria: Problems and Prospects	69-74
Investigating the Potential of Renewable Energy Sources to Support Sustainable Water Resource Management in Afghanistan	75-78
Lightweight Design and Study of Mechanical Bionic Butterfly Aircraft Based on Finite Element Analysis	79-84
Examining the Use of Traditional and Contemporary Methods for Valuing Contaminated Agricultural Lands in South-South Nigeria	85-90
Utilizing Computational Fluid Dynamics (CFD) Methodology to Simulate a Triangular Shell and Tube Heat Exchanger	91-96
