The peer-reviewed International Journal

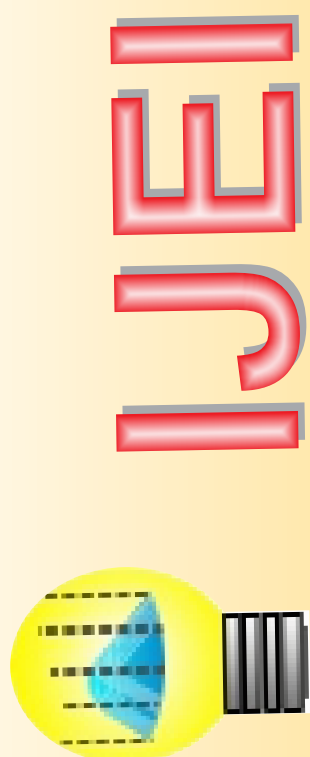

Research in Science & Technology

Application of Virtual Reality Technology in Pediatric Clinical Practice	01-08
The Effect of Artificial Intelligence Product and Automatics Equipment Investment on User Profitability	09-11
Vehicle Design and Launch under Dynamic Balance	12-14
Evaluation of the performance of a wireless communication system in a general fading environment that is affected by both shadowing and interference	15-19
The Roles of Supply Chain Management in Construction Engineering in the Syrian General Company for Housing	20-29
Vibration Analysis and Condition Monitoring Of a Marine Gas Turbine for Efficient Performance	30-44
USB LED Lamp Circuit	45-46
Assessment of the Effect of Flooding on Property Values in Ogbaru Local Government Area, Anambra State, Nigeria	47-54
Hardware in Loop Technique to Control the Speed of DC Motor Using PID controller	55-62
Survey on MANETs and WSNs: Difference, Features and Routing Protocols	63-69
Research on Milling Performance of Micro-texture Milling Cutter for Machining Titanium Alloy Work piece	70-74
New Estimation Methods for Economics and Management Models	75-79
Analysis of acoustic pollution in buildings near high traffic streets. Case study Zogu Zi crossroad, Tirane, Albania	80-87
Crystal field parameters and zero field splitting parameter of Mn²⁺ doped CdGa₂S₄ single crystals	88-93
Hand Gesture Controlled Robot Car Electronic and Communication Engineering Department, ABES Engineering College Ghaziabad	94-97
Study of Dislocation in Crystallography of TiAl Intermetallic Compounds	98-101
