Research in Science & Technology

Examining the impact of digital technologies and marketing capabilities on performance Small and medium enterprises	01-07
Vibration analysis of double-drum vibratory vibrations Part 1: Modeling and simulation	08-13
Vibration analysis of double-drum vibratory vibrations Part 2: Effects of operating conditions	14-17
Optimization of Hydrogen Sulfide Reduction in Biogas Using a Dual-Column Water Scrubbing System	18-23
Vibration analysis of double-drum vibratory vibrations Part 3: Effects of design parameters of driver's seat suspension system	24-28
Research on Intelligent Selection Quotient Model of Category Control Based On Entropy Weight -TOPSIS Optimization Method	29-41
Impact et performance de la gestion académique sur le Cloud Computing dans les institutions universitaires en RDC	42-52
Contributing Factors to the Effects of Design Errors In Building Construction	53-56
Emotions in Robots	57-59
A Review on Examination of the Strength Characteristics of Bacterial Self-Healing Concrete for Retrofitting of Rigid Pavement	60-63
Trajectory Design and Kinematic Analysis of Milling Robot	64-70
Science and Technology for Sustainable Development of Nigeria	71-74
Design of Self- Charge Electric Vehicle	75-80
Enhancing Effective Circulation and Production Using Architectural Strategies in Plastic Waste Recycling and Production Plants	81-89
Soil Resistivity Improvement Design for Substations Earthing Systems. A Case Study of NIBO Substation, Anambra State, Nigeria	89-90
