Research in Science & Technology

Synthesis of aircraft vertical channel automatic controller by Standard coefficient method	01-10
Analysis of Corn Moisture Content in Rack Type Dryer Towards Variations in Temperature and Drying Time	11-14
Preliminary screening and its therapeutical application of OCIMUM TENUIFLORUM Buffer Extract (OTBE)	15-20
Development of Intelligent Smart Inverter With Harmonic Reduction With Renewable Energy Applications	21-26
Ring Protection of Generator with Distributed Generator	27-31
BLDC Motor Driven by Solar Power Using CUK Convert for Water Pump	32-37
Some Applications of Euler Graph	38-44
Study the Anti-microbial property of Clove Oil [CO] and Eucalyptus Oil [EO]	45-48
Requirement-Driven Self-Adaptation: A Comprehensive Overview	49-61
The impact of population aging on agricultural development in Vietnam	62-65
Design and Mechanical Performance Analysis of Lower Extremity Exoskeleton Devices	66-74
The Effect Of Work Motivation And Implementation Of Discipline On The Performance Of Police Members In The Brimob Corps	75-81
Temporal Logic-Based Model Checking for Autonomous Systems	82-90
The transformation of palm oil mill effluents via anaerobic fermentation for yield bioethanol production	91-96
Monitoring Tool for Assessing Metabolic Disorders in Individual Cows	97-101
Shunt Active Power Filter Control Algorithms for Mitigating Harmonics: A Review	102-108
Influence of the Quality of Work Life and Work Motivation on the Performance of Police Members in Unit IV Reskrim Polres Metro Jakarta Utara	109-116
Scheduling Preventive Maintenance Using Age Replacement Method for Test Tube Machine	117-131
Determining the Number of Workers Based on Standard Time with the Work Sampling Method for the Office Section at PT. Solo Murni Bandung Branch	132-137
